WELCOME MESSAGE

Dear friends,

On behalf of our organizing committee, I would like to warmly invite you to attend the WCBIP 2020 in Shanghai on Apr 16-19, 2020. This biennial congress is hosted by the WABIP, and is co-organized by the Chinese Medical Association and its affiliated Chinese Thoracic Society.

As the largest international organization in the area of bronchology and interventional pulmonology, the WABIP has over 8,600 members globally. Our organization has developed very quickly in the past decade, benefiting from the innovations and progresses of respiratory endoscopy and interventional pulmonology.

The theme of WCBIP 2020 is “New Land, New Scope”. “New Land” implies that bronchology and interventional pulmonology is a new subfield of modern respiratory medicine. Latest technologic innovations in bronchology and interventional pulmonology is one of the promising frontiers of modern respirology. “New Land” also means that advancing countries like China and up and coming countries are involving themselves deeper in the academic pursuits of bronchology and interventional pulmonology. As one of the most rapidly developing countries, China will establish an excellent partnership with WABIP and bring in many more nationals to the WABIP. “New Scope” means that new respiratory endoscopic techniques are being developed that will be highlighted at WCBIP 2020. It also implies that developing countries, such as China, India and others, have entered the scope of the WABIP and will be one of the focus of the society for years to come.

The WCBIP 2020 will reveal a new landscape of bronchology and interventional pulmonology. It will bring the WABIP to an era of a more colorful and bright future with the involvement of developing countries and the innovation of new respiratory endoscopic techniques.

Our program will include an opening ceremony, scientific seminars, satellite symposia, hand-on workshops, oral and poster presentations, video festivals and other academic activities. Do not miss out on our brilliant and extravagant social and scientific programs.
China is the largest developing country with 56 ethnic groups, total population of 1.3 billion. She has splendid and pluralistic culture and are famous for delicious foods and beautiful arts. Shanghai is a magical city. It is the largest financial and trade center in China. Her fascination comes from the combination of modernity and tradition. Although Shanghai is not a city with the longest history in China, the City God Temple is over 600 years old. It exemplifies the dramatic change within Shanghai. Wandering along the river side, enjoying the leisure time. River boat trip will bring you enjoy the most beautiful scenery of Huangpu. The 486-meter-high Oriental Pearl Tower will provide you a birds-eye view of Shanghai.

Medicine grows up with the growth of medical industries. New devices and technologies have saved numerous lives in the past. The sponsor to medical congresses has made thousands of companies to be acknowledged by clinical professionals and thus expand their business. Patients and their families are also benefited from this communication. WCBIP 2020 will cover almost all the hot topics relating to bronchology and interventional pulmonology. We welcome either device providers or pharmaceutical companies to involve in the great congress. Your company can select one or more ways to spread your devices, drugs and technologies in WCBIP 2020 as follows: satellite symposiums, evening symposia, early morning symposia, expert forums, practical workshops and exhibition. In addition, there are also other sponsor or advertisement opportunities.

Providing best products and services to patient are our common goal. We are looking forward to meeting you in Shanghai. Welcome to Shanghai. Welcome to WCBIP 2020.
